## Grading Standards

**MINT:** A factory fresh knife, absolutely original as it came from the manufacturer, not carried or sharpened, a perfect knife.

**NEAR MINT:** A new knife that has seen sometimes, show some slight carry or shop wear, blades snap perfectly, handles show no cracks.

**EXCELLENT:** Shows no more than 10% blade wear, handles are sound, no cracks, blades snap good.

**VERY GOOD:** About 25% blade wear, slight cracks in handles, may have one lazy blade, stamping clearly visible to the naked eye, no blades changed or repaired.

**FAIR:** 50% blade wear, blades lazy, cracks and chips in handles, handles replaced with same type, blades repaired, stamping faint but readable with a glass.

**POOR:** Blades very worn, handles bad or missing, blades have been replaced with the same type, reading of the stamp is almost impossible, even with a glass, good mostly only for parts.
